GROUP	10	Herbicide
-------	----	-----------

**Liberty® 280 SL Herbicide**  
**For use on Canola Seed Production**  
**EPA REG No. 264-829**  
**SLN No. MT-12-0003**

## ***FIFRA 24(c) Special Local Need (SLN)***

### **FOR DISTRIBUTION AND USE ONLY IN THE STATE OF MONTANA**

**For use on Canola Seed Production for control of canola plants that do not carry a gene that imparts tolerance to Glufosinate-ammonium**

#### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This label must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

**THIS LABEL IS VALID UNTIL JULY 2, 2017 OR UNTIL OTHERWISE AMENDED, WITHDRAWN, CANCELED, OR SUSPENDED.**

### **APPLICATION DIRECTIONS FOR CANOLA SEED PROPAGATION**

Liberty® 280 SL Herbicide may be used in canola seed propagation as a foliar spray to selectively eliminate canola plants that do not carry a gene that imparts tolerance to glufosinate-ammonium and as such, can be applied to remove susceptible segregates during canola seed propagation. Breeding material not possessing the glufosinate-ammonium tolerance gene will be severely injured or killed if treated with this herbicide.

Apply Liberty® 280 SL Herbicide only to canola labeled as LibertyLink®. Uniform, thorough spray coverage is necessary to achieve consistent activity.

#### **APPLICATION RATE AND TIMING**

Up to three applications of Liberty® 280 SL Herbicide at up to 22 fl oz/A per application may be made to canola for seed production. Applications may be made from the cotyledon stage up to the early bolting stage (e.g., BBCH 18 - 30, between just prior to stem elongation/bolting, eight or more leaves and beginning of stem elongation, no internodes).

#### **RESTRICTIONS TO THE DIRECTIONS FOR USE ON CANOLA FOR SEED PRODUCTION**

- **DO NOT** apply more than three applications of Liberty® 280 SL Herbicide at up to 22 fl oz/A per application per growing season.
- **DO NOT** apply more than 66 fl oz/A of Liberty® 280 SL Herbicide per growing season.
- **DO NOT** apply Liberty® 280 SL Herbicide beyond the early bolting stage or within 65 days of harvesting canola seed.
- **DO NOT** use treated canola seed for food, feed or oil purposes.
- **DO NOT** apply Liberty® 280 SL Herbicide if canola shows injury from prior herbicide applications or environmental stress (drought, excessive rainfall, etc.).
- **DO NOT** apply this product through any type of irrigation system.
- Refer to the "Rotational Crop Restrictions" section under the "Information" heading of the Liberty® 280 SL Herbicide label for the appropriate rotational crop plant back intervals.
