Here is the Produce Assessment Reporting form for the period ending June 30, 2017. Section 80-3-314, Montana Code Annotated states, 'the produce dealer who first distributes produce in this state or a grower who retails Montana-grown produce with gross annual sales exceeding \$25,000 shall pay the produce assessment fee'. The report is due on or before 30 days after the last day of this period. Please complete the front and back of this form and return with the appropriate fees to the address at the top of this letter with check or money order payable to the Montana Department of Agriculture. This form is required even if no sales or distributions occurred, simply indicate zero on the form.

If distributions did occur, complete the back of this form that contains a listing of types and sizes of produce units. This list is not all inclusive. If other miscellaneous produce was sold in Montana, it should be noted with a similar unit size or listed separately in the miscellaneous area. The department will accept an alternate format as long as the pertinent information is provided. Indicate the number of units of each type of produce, sum and transfer the total to the front of this form. Multiply the total number of units by \$0.06.

For questions concerning this form, contact the Licensing and Registration Specialist at (406) 444-0510 or by email at [csb-mtplants@mt.gov](mailto:csb-mtplants@mt.gov).
