Referendum Results:
• Proposed Assessment at 2% failed; 45-YES, 70-NO
  • Committee would like to repurpose assessment amount. Mailing could include letter from committee explaining what the money will be used for
    • Jackee Beck- Suggested a letter form the committee members to be included
    • Bart Icopini suggested a series of meetings- submitting ballot at the meetings
    • Ben Thomas reminded the committee that they are all over the state so those meetings could be “chaired” by a committee member
  • Assessment is voluntary, can be refunded. Can be voted Yes and still ask for a refund of assessment fees
  • Cort Jensen reminded the committee (callers) that the department is not benefitting from the assessment. If the department is the messenger, it can come across poorly
    • Benefits the universities and benefits the growers
  • What is a good time to send?
    • “Between crops and Cattle”-Dean Nelson
    • “Next couple of months, during contracts”- Ken Elliott
  • Will hold a conference call in the next 2-3 weeks to discuss
USDA Interim Final Rule:
- Ben discussed the resubmission of the state plan. The state plan will be in line for what USDA is calling for. Montana Sampling at a risk base approach, which is better for our state
- Many states are submitting responses, but not coordinating with other states, because states needs are different
- October 2020 deadline for operating on the pilot plan.
  - Really working towards getting the state plan official accepted
- Cort Jensen- USDA is working with 17028 comments and are about a week behind

Committee Appointments and Future of the Hemp Committee:
- March 15, 2020 committee terms expire
- Original appointments were made for 1 year
- Applications are on the department website

Discussion/Public Comment:
No other public comment

Adjourn:
Ben adjourned the meeting at 10:52am
