

Food and Ag Development Centers
ORION FARMSTEAD
SUCCESS STORY

The Project

Orion Farmstead is a farm focused, holistic approach to reconnect people with food, the land and community. Orion is an educational farm on reclaimed degraded land. They have multiple lodging options for people to stay in. Amenities include a farm, creek for fishing and hydrotherapy. The farm gives guests activities that include foraging, gardening, cooking farm to table meals, fly fishing and other related activities. Orion Farmstead received a 2026 Agritourism grant of \$10k to build a farm store and greenhouse. Giving guests more to enjoy on their stay.

Funded by and in partnership with:

They have continued to work with the FADC Network to meet new community partners, look for funding, and expand on their podcast episodes and outreach. Ashton Todd, one of the founders of Orion Farmstead, is also the creator of The Rooted Rebellion Podcast. A podcast focused on discussions around food systems, local food and connecting back to nature. The podcast brings in experts in food systems and agriculture. The focus is to grow community knowledge and create a world focused on sustainable agriculture. By bringing people back to their roots.
