RE: SEMI-ANNUAL Fertilizer & Soil Amendment Tonnage Report

To Whom It May Concern:

Enclosed is a Semi-Annual Commercial Fertilizer and Soil Amendment Tonnage Reporting form. The report is mandatory and due on or before the 30th day of the month following the close of this period. Periods are from January 1st -June 30th, and July 1st - December 31st. There are no fees associated with this report.

Only commercial fertilizers and soil amendments for farm use are to be reported. Fertilizer blends should be reported by their base (straight) products only. Specialty products such as those labeled for home, lawn, turf and garden use are exempt from tonnage reporting.

Accurate reporting is required, including the Uniform Fertilizer Tonnage Reporting System (UFTRS) Code. The UFTRS Code is nationally recognized and is essential to uniform reporting of fertilizer use data. More specific instructions are included on the back of this letter.

This report is required even if no sales or distributions occurred. If no sales occurred during this period, indicate zero on the form.

Please return the report to the address at the top of the form. Optionally, you may submit your tonnage via email at csb-mtplants@mt.gov.

For questions concerning this form, contact the Fertilizer Program Specialist at (406) 444-3730 or by email at csb-mtplants@mt.gov.

INSTRUCTIONS
SEMI-ANNUAL TONNAGE REPORTING FORM
 For COMMERCIAL FERTILIZERS and SOIL AMENDMENTS

The Montana Commercial Fertilizer Act Section 80-10-207 states “Each licensee who distributes a soil amendment or commercial fertilizer, except specialty fertilizer and un-manipulated animal or vegetable manures, to an unlicensed person in this state shall file with the department on forms approved by the department a semi-annual statement for the periods ending June 30 and December 31 setting forth the number of tons of each commercial fertilizer and soil amendment distributed in this state during the 6-month period. **The report is due on or before the 30th day of the month following the close of each period.** There are no fees associated with the semi-annual report.”

Administrative Rules of Montana (ARM) 4.12.609 adds “**A separate semi-annual statement is required for each licensed location.** A semi-annual statement is required *even if no sales or distributions occurred* within a six-month period. Failure to file the disclosure may constitute grounds for revoking a license.”

For each fertilizer or soil amendment, legibly write in the UFTRS Code, the grade, the county in which the product was distributed and the number of tons under the appropriate package type. If one product was distributed into more than one county, you will need to separate and include the appropriate number of lines for that one product. Example:

UFTRS Code	Grade			County	Report Number of Tons		
	N	P	K		Bagged (Dry)	Bulk (Dry)	Liquid
66	46	0	0	Cascade		150	
58	28	0	0	Choteau			50

If you require additional space, please use the back of the form. Make copies of the back of the form if necessary. The last page of this packet is the UFTRS Code Table. Please use this list for completing this form and keep for future reference.

For more information on Montana’s fertilizer reporting requirements or to see the complete Montana Commercial Fertilizer Act, please visit our website at: <http://agr.mt.gov/agr/Programs/Commodities/Fertilizer/>. Click on MCA Title 80 Chapter 10 under Laws and ARM 4.12.6 under Rules.

Definitions:

COMMERCIAL FERTILIZER – “includes any substance containing one or more recognized plant nutrients that is used for its plant nutrient content and that is designed for use or claimed to have value in promoting plant growth, yield, or quality of the crop.”

LICENSEE – “means a person licensed under 80-10-202” of the Montana Commercial fertilizer Act.

PERSON – “means an individual, partnership, association, firm, or corporation.”

SOIL AMENDMENT – “means any substance which is intended to improve the physical or chemical characteristics of soil.”

SPECIALTY FERTILIZER – “is a commercial fertilizer (dry or liquid) distributed primarily for non-farm use and includes commercial fertilizers used for research or experimental purposes.”

UFTRS is the Uniform Fertilizer Tonnage Reporting System administered by the Association of Plant Food Control Officials. It is used to compile data of fertilizer distribution across the US which is used to promote the safe and effective use of fertilizers.

UFTRS Code	Product Name	Typical N, P2O5 & K2O Values			UFTRS Code	Product Name	Typical N, P2O5 & K2O Values
