31 December 2029.**

DIRECTIONS FOR USE

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This state-specific Section 24(c) labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label for EPA Reg. No. 5481-479.

ALFALFA (Grown for Seed Only)

Lygus: Apply 1 to 1½ pints Dibrom 8 Emulsive per acre (0.9 to 1.4 lbs. a.i./A). Repeat applications may be made on 7-day intervals. Do not apply more than 3 applications per year. Do not exceed more than 4.5 pints Dibrom 8 Emulsive per year of 4.2 lbs a.i./A. Apply in 10 to 20 gallons per acre if applied by ground or in 3 to 5 gallons per acre if applied by air.

Use of this product according to this labeling is deemed a non-food use and as such is not to be used on fields producing alfalfa for livestock feed. DO NOT feed or allow livestock to graze alfalfa treated with Dibrom 8 Emulsive. DO NOT cut treated alfalfa for hay or for forage or use harvested seed for sprouting. No portion of the treated field, including seed, seed screenings, hay, forage or stubble may be used for human or animal feed.

All alfalfa grown for seed treated with DIBROM 8 Emulsive is to be tagged “NOT FOR HUMAN OR ANIMAL CONSUMPTION,” at the conditioning plant.

NOTE: An agreement must be signed with the Montana Department of Agriculture prior to the purchase of DIBROM 8 Emulsive for use according to this label.

BEE EXPOSURE

Dibrom 8 Emulsive is highly toxic to bees exposed to direct treatment. To minimize hazard to bees, avoid applying more than two hours after sunrise or two hours before sunset, limiting application to times when bees are least active. Do not apply this product or allow it to drift to blooming crops or weeds while bees are visiting the treatment area. DO NOT apply if weather conditions favor dew formation the night of application.

RESTRICTIONS / PRECAUTIONS

- This product is toxic to fish, aquatic invertebrates, and wildlife.
- DO NOT apply within 24 hours following rainfall or in areas where intense or sustained rainfall is forecasted to occur within 24 hours following application.
- For use in accordance with this SLN label DO NOT apply this product through any type of irrigation system.
- DO NOT enter or allow worker entry into treated areas during the restricted entry interval (REI) of 48 hours.
- Ground Application: DO NOT apply by ground within **25 feet** of lakes, reservoirs, rivers, permanent streams, marshes, natural ponds, estuaries and commercial fish farm ponds, where wind is blowing or gusting toward these areas.
- Aerial Application: DO NOT apply by air within **150 feet** of lakes, reservoirs, rivers, permanent streams, marshes, natural ponds, estuaries and commercial fish farm ponds, where wind is blowing or gusting toward these areas.
