

MDA 2026 Fall Recertification Training - Belgrade

Location: Holiday Inn Express

Date: Thursday, October 15, 2026

<u>TIME</u>	<u>TOPIC</u>	
8:00 – 8:20	Check – In	MDA Staff
8:20 – 8:30	Welcome, Introductions, and, Housekeeping	Beth Thomas, MDA
8:30 – 9:20	Ornamental and Turf Pest Management	Victor Gust, Warne Chemical
	<i>This presentation will provide applicators with a working knowledge of pest identification, plant biology, how herbicides work, and when to use herbicides to use them to interrupt the plant life cycle to provide effective control.</i>	
9:20 – 10:10	Control of Vertebrates in Sensitive Areas	Stephen Vantassel, MDA
	<i>This presentation discusses the management of ground squirrels, pocket gophers, prairie dogs, and voles that occur in areas visible to neighbors and the public, such as parks, residential properties, golf courses etc. Topics include biology and abilities, their damage, disease, and sign of presence. The remainder of the presentation details the strategies to eliminate their presence from the landscape with attention on the pros and cons of techniques and their risks for public condemnation. Control methods discussed include habitat modification, exclusion, trapping, and toxicants.</i>	
10:10 – 10:25	BREAK	
10:25 – 11:15	Groundwater and Recycling/Disposal Program	Brett Heitshusen, MDA
	<i>This presentation describes changes in common herbicide products from glyphosate formulations to triclopyr and the differences in environmental transport and fate of the two chemicals, as well as the risks of increasing atrazine use. Container preparation for agricultural chemical plastic container recycling collection, recycling program routes, and new infrastructure. Waste Pesticide Disposal program how to register, what's accepted, and upcoming events.</i>	
11:15 – 12:05	Soil Health	NRCS Staff
	<i>In this presentation, characteristics of healthy soils will be described as well as the effect of herbicides on soil health. In addition, strategies to reduce the need for herbicides will be explained.</i>	
12:05 – 1:05	LUNCH	
1:05 – 1:55	Pesticide Law, Compliance & Enforcement	Katie Boynton, MDA
	<i>The compliance assistance and enforcement program helps ensure pesticides are managed for the protection of humans, animals, crops and the environment. This presentation will describe what pesticide applicators should expect to be asked as well as the various elements of investigations and routine inspections, compliance assistance, the complaint process, how to handle pesticide spills and best practices for proper pesticide storage.</i>	
1:55 – 2:45	Pesticide Safety Bingo	Beth Thomas, MDA
	<i>Criteria to properly select PPE, where to find minimum PPE requirements, and the cleaning, maintaining, and disposing of PPE will be revisited. In addition, different types of labels, how and when to read a pesticide label, including names, ingredients, formulations, signal words, symbols and their relative hazard level, precautionary statements, and environmental hazard statements will be reviewed.</i>	
2:45 – 3:00	Wrap-Up, Evaluation, and Closing Remarks	

AVAILABLE CREDITS PER PESTICIDE CATEGORY:

<u>CATEGORY</u>	<u>CREDITS</u>
(0) Dealer	6
(1) Agricultural Plant Pest Control	4
(2) Forest Pest Control	3
(3) Ornamental and Turf Pest Control	6
(4) Seed Treatment	2
(5) Aquatic Pest Control	3
(6) Right-of-Way, Rangeland, Pasture, and Noncrop Pest Control	3
(7) Industrial, Institutional, Structural, and Health Related Pest Control	3
(8) Public Health Pest Control	3
(9) Non-Soil Fumigation	3
(10) Demonstration and Research	6
(11) Wood Product Pest Control	2
(12) Livestock Protection Collar (1080)	2
(13) Sodium Cyanide (M-44)	2
(14) Special Utility	3
(15) School Pest Control	5
(16) Agricultural Animal Pest Control	2
(17) Agricultural Vertebrate Pest Control	3
(18) Aerial	3
(19) Piscicide	3
(20) Mosquito Abatement	3
(21) Predator	2
(22) Rodent	3
(23) Regulatory Weed	3
(24) Sewer Treatment	2
(25) Animal Contraceptive Vaccine	2
(26) Biocide Treatment	2
(40) Private Agricultural Pest Control	6
(41) Private Aquatic Pest Control	3
(42) Private Livestock Collar	2
(43) Private Sodium Cyanide (M-44)	2
(44) Private Non-Soil Fumigation	3
(45) Private Aerial	3

Evaluation:

At the conclusion of the training, please use the link or QR code to access and complete the short evaluation about this training. Thanks in advance! 😊
