

STATE AGENCY AND COUNTY WEED DISTRICT
BIENNIAL NOXIOUS WEED REPORT FY 2008 – 2009

Submitted January 2010

Dave Burch
State Weed Coordinator

Prepared by the Montana Department of Agriculture
Pest Management Bureau
Noxious Weed Program

The purpose of this report is to summarize weed management information from Biennial Reports received from 56 county weed districts and seven state agencies. This report results from changes that were made in the performance reporting procedures, and highlights some issues and problems regarding coordination of weed management efforts in the state.

Under Section 7-22-2151, MCA, of the County Noxious Weed Control Act, state agencies are required to develop an agreement with county weed boards for weed management on state-owned lands. These agreements must include:

- an integrated noxious weed management plan that is updated biennially;
- a noxious weed management goals statement; and
- a specific plan of operations, including a budget to implement the plan.

Another provision in this section requires a biennial performance report be submitted to the state weed coordinator in the Montana Department of Agriculture regarding the success of the plan on a form provided by the Department. A 2003 Legislative audit found the content of the previous biennial reports inadequate to provide an assessment of effectiveness of each agency's weed program. To address this, a form was created that requires state agencies that have lands within a county to meet with a designated representative from the county. To meet statutory requirements, a representative of the agency and county must review and sign the report, then submit the report to the Department of Agriculture.

Results of the summary indicate that of a total 205 county/agency reports, 25 reports were incomplete and 5 reports were not received. The report forms were mailed to counties and agencies on May 8, 2009 with reminders to complete the reports made in October 2009.

It is critical for responsible parties at the local and state levels to communicate and actively take part in each other's program for weed management to be effective. One of the problems that continues to plague weed management in Montana is the lack of a stable structure. Each county and state agency needs a full-time weed coordinator with a line item budget dedicated for weed control. The Montana Weed Management Plan identifies county weed districts as being the cornerstone of Montana's weed program. One of the "action items" of the plan is to establish full-time weed coordinator positions in each county or multi-county area in Montana and in each state agency. Employing a full-time weed coordinator provides leadership that is critical for organizing, directing, and implementing weed management that will ultimately strengthen Montana's weed management effort and facilitate implementation of the Montana State Weed Management Plan.

WEED KEY AND ABBREVIATION CODE

1. Spotted knapweed
2. Diffuse knapweed
3. Russian knapweed
4. Canada thistle
5. Field bindweed
6. Whitetop or Hoary cress
7. Leafy spurge
8. Dalmatian toadflax
9. Yellow toadflax
10. Hoary alyssum
11. Blueweed
12. St. johnswort
13. Sulfur cinquefoil
14. Common tansy
15. Ox-eye daisy
16. Houndstongue
17. Dyers woad
18. Purple loosestrife or lythrum
19. Tansy ragwort
20. Orange hawkweed
21. Meadow hawkweed
22. Tall buttercup
23. Tamarisk (Saltcedar)
24. Perennial pepperweed
25. Yellow flag iris
26. Common crupina
27. Rush skeletonweed
28. Yellow starthistle
29. Eurasian watermilfoil
30. Flowering rush
31. Japanese knotweed
32. Scotch broom
33. Other

County	Agency	6 Yr. Weed Mgmt. Plan on File?	Total Agency Acres	Total Acres Infested	Target Weeds (see key)	Action Taken	Action Detail (# of insects released, etc.)	# of Acres Treated	Goals Met?	Budget	Comments
Roosevelt	MDT	yes	3,632	not reported	1, 4, 5, 7, 8	herbicide		150	no	\$12,000	Roosevelt County needs to do better.
Roosevelt	MSU	<i>Not Applicable</i>									
Roosevelt	U of M	<i>Not Applicable</i>									
Rosebud	DOC	<i>Not Applicable</i>									
Rosebud	DNRC	yes	178,103	not reported	1, 3, 7	herbicide		>15	no	\$750	Rosebud County is doing some fall spraying for DNRC. We have \$750 to do this with, I am guessing approximately 15 acres will be treated. More or less could be done depending on labor cost. Rosebud County has not had a management plan on file since December of 2002. When I did the last biennial report I sent them a letter and a copy of the last management plan and stated that we needed to enter into another plan. To date I have heard nothing from them about getting this up to date. Additional comment added by DNRC - Work has not been accomplished to date and "yes" agency weed management plan on file.
Rosebud	DPHHS	<i>Not Applicable</i>									
Rosebud	FWP	yes	72	21	7, 4, 23, 16	herbicide / mechanical	mowing	21	yes	\$2,700	Control efforts by the county and FWP personnel. The annual budget for FWP managed land in Rosebud County is \$1,350. FWP is very easy to work with. I feel Dwayne has a good vision and we are achieving his goals.
Rosebud	MDT	no	4,245	not reported	5, 4, 3, 1, 6	herbicide		715	yes	\$15,000	2008 - We sprayed a total of 715 acres for DOT.
Rosebud	MSU	<i>Not Applicable</i>									
Rosebud	U of M	<i>Not Applicable</i>									
Rosebud					5, 4, 3, 1, 6	herbicide		265	yes	\$18,000	2009 - Our budget was increased this year, due to targeting some higher infested areas on secondary HWY. I have not gotten total acreage for this year. It will be approximately 850 acres. There is not a current management plan on file. Although we meet yearly with DOT and have a wonderful working relationship. I ask for something and they are always easy to work with and we usually accomplish what needs to be done. The Miles City Division is great to work with.
